SITE & WELFARE SERVICES
PRODUCT GUIDE

HARLEQUIN

Office Furniture, Site Services & Interiors

WHY CHOOSE HARLEQUIN?

Harlequin Office Furniture Limited is a family run business, based in Scunthorpe, North Lincolnshire, and was established in 1991. In the early days, we recognised the need for a budget office furniture supply, and in response to this, Harlequin specialised in the supply of good second hand furniture and cost effective products. Harlequin also offered entry level furniture for hire, which due to the economy at the time was particularly attractive to the construction industry. We have progressed over the years to provide a diverse range of quality furniture to suit any budget or requirement.

Harlequin soon realised that the construction, modular and portable building industries required a full range of quality, cost effective, site services and site welfare and office furniture. We consulted with key accounts within this sector, and consequently sourced and delveloped products and reactive lead times that met with this demand within the fast paced industry.

Over the years Harlequin has built a wide portfolio of clients from across all sectors. We have designed, planned, project managed and successfully delivered thousands of projects from a single site office through to fully bespoke high profile projects. Our commitment to these business sectors have seen Harlequin grow into a market leader in this industry.

Harlequin's product portfolio has also grown and is more diverse than ever. Products offered are synonymous with quality and reliability whilst offering exceptional value for money. Harlequin has invested heavily in the products it supplies, and the manufacturing partners we use are carefully selected for their flexibility and loyalty.

Harlequin have their own dedicated delivery team, most have had many years' experience which is passed on down the team. The excellent feedback from our customers demonstrates that we are meeting the required high level of service our customers expect. Likewise, our sales team and sales support team are there to offer assistance on products, planning and arranging deliveries.

" The entire team on site were professional and courteous at all times, their work effort was outstanding and they are a true asset to your business. I would not hesitate in using your services again.
Morag Scott

We will continue to use Harlequin on an ongoing basis as our expanding business needs to grow and we'd wholeheartedly recommend Harlequin to other businesses looking for a quality partner to provide a complete office solution service. "

Mark Dann

OUR SERVICES

MEASURING & SPACE PLANNING

Our CAD team have years of experience within the office furniture industry, and can offer professional 2D space plans. We carefully take into account each project and offer solutions whilst still considering today's health and safety guidelines.
FURNITURE RANGES

We have a comprehensive range of products we can offer to cabin, construction, modular building divisions and any office or welfare space. From office blocks to schools and colleges, we are able to create and supply innovative and contemporary styles, including modern classics, to fulfil any customer requirements and budget.

INSTALLATION

Whether it's a small or large installation, our dedicated teams deliver all over the country. We also offer a service in which we can visit the site prior to the delivery and installation taking place. This is to ensure the site is ready for us, and to ensure that any unforeseen issues are resolved before we arrive. This has proven to be of huge importance by helping the client and ourselves save time and money. Prior to the installation date, our operations team will contact the site to book in the delivery, making sure site are ready for us, and to go through our pre-site check list. We kindly ask site contacts to complete this form with us in order to avoid any unforseen delays or issues once we arrive on site, and to also let us know what is expected of us on site. Failure to inform us of any potential delay, induction, or any site specific requirement etc... may result in extra charges. RAMS will be sent upon request via email and a paper copy sent to site with the delivery team. Direct contact will be made to the end user to ensure all of the health and safety requirements and policy's are met. **We do NOT complete floor or wall fixing on lockers, fast food units, or any of our products, we also do not fit any electrical products or equipment, such as power modules.**

INDEX
